

1977 Triumph T-140V Bonneville

I am the second owner of this 1977 T-140V Triumph Bonneville. I have powder coated the frame and other black parts to freshen up the machine. The barrel has been powder coated and the wheel hubs are powder coated the aluminum silver color. Engine cases have not been split apart, however the barrel was removed to powder coat the barrel and new standard piston rings installed. A number of up grades have been done to the machine such as progressive front fork springs, front and rear sealed wheel bearings, Boyer Electronic Ignition, spine oil filter conversion. Stainless steel brake lines installed. The fuel tank was repainted using the correct paint from Don Hutchinson Motorcycles in the US. Fasteners have been cad plated. This machine is totally original. The Triumph has won a number of awards over the years and is a strong runner. Is feature on the front cover of the recently released book called Shooting Star by Abe Amidor.

Retirement is coming and I am down sizing.

More pictures and documentation is available.

Price is \$ 7,950.00 Canadian Dollars

Shipping is the buyers cost and responsibility.
