Workshop 1957_64	This is a Norton Villiers Ltd workshop manual covering all AJS-Matchless singles & twins (but not the Norton-engined twins) from 1957 to 1964. The one I copied was, according to the "rubber stamps" on it, originally the property of Gus Khun Motors Ltd , Clapham Rd, London – now there's a bit of history!!	This is a full-on workshop manual with over 100 pages, not just an owner's handbook.
Matchless_Hartley	This is an electronic copy of a wonderful out-of-print book titled "Matchless – once the Largest British motorcycle manufacturer", by Peter Hartley. It is a full history of the marque from 1878 to the very last G80CS in 1969, detailing models, personalities, and the racing history.	NOTE: For copyright reasons this file may only be viewed on your computer, it may not be printed.
AJ_Matchless Engine Numbers	This document was salvaged from a cleanout of the archives of a country Victoria Police Station & was used by Victoria's police to examine citizens' motorcycles with a view to checking registration details against engine numbers. The data base lists make and models, locations of engine numbers, and engine number ranges – just the thing for dating that machine of doubtful heritage. Covers AJS from 1946 to 1957, & Matchless from 1949 to 1956.	This was an "internal" Victoria Police" document, never intended for outside use, and is a bit "hand made".
